## CORONAVIRUS

Coronavirus disease (COVID-19) is an infectious disease caused by a newly discovered coronavirus.

Most people infected with the COVID-19 virus will experience mild to moderate respiratory illness and recover without requiring special treatment. Older people, and those with underlying medical problems like cardiovascular disease, diabetes, chronic respiratory disease, and cancer are more likely to develop serious illness.

The best way to prevent and slow down transmission is be well informed about the COVID-19 virus, the disease it causes and how it spreads. Protect yourself and others from infection by washing your hands or using an alcohol based rub frequently and not touching your face.

The COVID-19 virus spreads primarily through droplets of saliva or discharge from the nose when an infected person coughs or sneezes, so it's important that you also practice respiratory etiquette (for example, by coughing into a flexed elbow).

## BEWARE OF FAKE NEWS

During this Pandemic, We need to be more careful on accepting any information going around the internet, make sure to get news from a reliable sources.

## ABOUT US

Welcome to Covid-19 Tracker website when you can get the information about covid-19 cases by tracking your location. This help people to be more aware of their surrounding and prevent them from going to unwanted places.

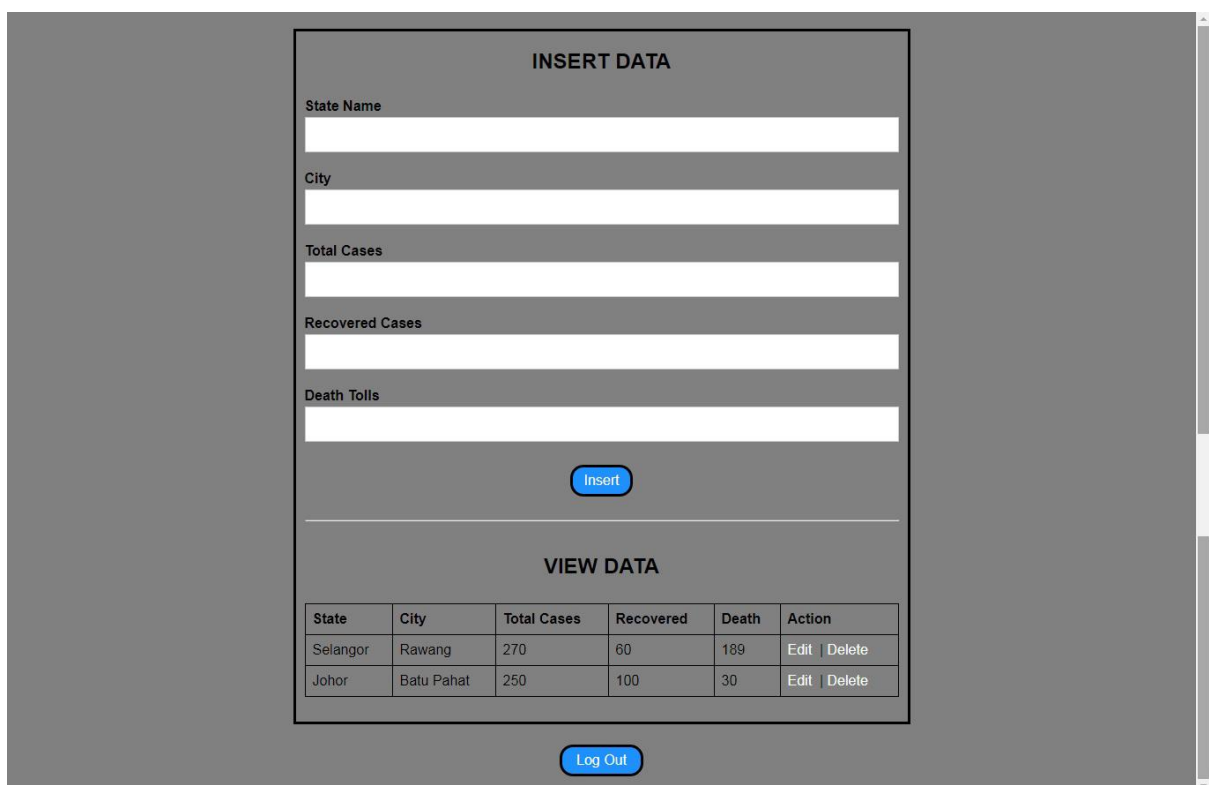

User will be directed to the main page of the website once they successfully log in. At the home page, users can go through the whole webpage. The menu bar consists of Latest News, MCO and info about the website.

The image shows a login interface for an application titled "Covid-19 Tracker". At the top, there is a circular profile icon of a person with dark hair wearing a blue suit. Below the icon, the title "Covid-19 Tracker" is displayed in orange. The login form includes two input fields: "Admin ID" with the placeholder text "Enter ID" and "Password" with the placeholder text "Enter Password". Below these fields is a prominent orange "Sign In" button.

This is the log in interface for admin.

The image displays the admin dashboard interface. It is divided into two main sections: "INSERT DATA" and "VIEW DATA".

**INSERT DATA**

This section contains five input fields for data entry:

- State Name
- City
- Total Cases
- Recovered Cases
- Death Tolls

Below the input fields is a blue "Insert" button.

**VIEW DATA**

This section displays a table with the following data:

State	City	Total Cases	Recovered	Death	Action
Selangor	Rawang	270	60	189	<a href="#">Edit</a>   <a href="#">Delete</a>
Johor	Batu Pahat	250	100	30	<a href="#">Edit</a>   <a href="#">Delete</a>

At the bottom of the dashboard is a blue "Log Out" button.

Once log in, admin can update, create, and delete data from the database.
